Description

W. & L. E. GURLEY Engineers' Wye Level. It's a beauty. It is 22 inches long. The level dates from 1910 to the early 1920's. The original Gurley sticker is in place inside the mahogany case (which is beautiful but does have scuffing) and appears to say model #379, but the last two digits are awfully hard to read. The level has a gorgeous dark bronze finish on the telescope, vial case and on the bar and leveling head. The patina is particularly striking and beautiful. Nice instrument!
