

14 JAN

LOGAN COUNTY AND HISTORICAL ARCHEOLOGICAL SOCIETY

Zanesfield, Ohio
Jan. 12, 1963.

Mr. Donald A. Hutslar,
Ohio State Museum, Columbus, O.

Dear Mr. Hutslar:

In reply to your query concerning antique surveyor's instruments, We have one Compass.

1. G-Chandlee, W. J. Garwood.
2. 14 1/4 inches long.
3. 5 inch needle.
4. No, dial does NOT move.
5. No levels.
6. No carrying case.
7. The surveyor's chain is with it.
8. It was brought from N. Carolina in 1806 by one of the first Quaker colonists, Mr. Martin Marmon. He used it in survey of the Sandusky Trail, Zanesfield and surrounding country. It was presented in 1956 to the Logan County Historical Society by a descendant, Mr. Henry Marmon, of Boise Idaho.
9. It has an Outkeeper. (What is it's purpose?)
10. Yes, it may be photographed. (If you give us a print.) But it cannot be purchased at any price, being permanently dedicated to the people of Logan County.

We will be interested in procuring the book or books when published; and are happy to provide this information.

Yours most sincerely,

Guy W. Furbay
Guy W. Furbay, Secretary.
